Subject: RE: UST inspection 8/5

Dee and Kristen,

Just writing an email to convey what I was just talking to Kristen about. Given that Shem has already scheduled the open dump inventory work on August 5th, we will not be conducting an underground storage tank inspection that day. Kristen also told me that the notice of our inspection should go to the Chair and that this general request was communicated to EPA's RA. I absolutely want to honor that so I will be working on a notice that goes to the chair from whoever is appropriate at EPA. It is generally our practice to provide informal notice to tribal environmental staff via a phone call or email followed a letter. We typically have sent those letters to the head of the environmental departments but will make other arrangements when that is called for. It is called for here.

I will have Kevin contact Kristen to arrange another date that works with the tribe and the gas station management and is out into the future more (about 30 days or something mutually agreed upon).

Thanks for the follow-up.

Sherry

Hi Sherri, just making sure. Kristen will be contacting the Ojibwe Gas station Manager to see if August 5th will work however, Shem Chou, Region V EPA, wSTARS Open dump inventory site

visit is being requested for the same date. Shem will be coming from LCO to LDF. So that is our dilemma at this point but perhaps if the Gas station site visit is later that day it may all work out.

Kristen? Your thoughts?

Dee,

My apologies for not mentioning our plans to inspect the Ojibwe Gas Station. Kevin was still working on his initial plans and I did not have the logistical details when we left to come up to visit you at Lac du Flambeau. I hope the dates will work out but understand that there are other things to work around. If the dates do not work, Kevin will work with you to find an alternative set of dates.

Sorry also but the name mistake. I know you as Dee Allen for sure but didn't catch the Mayo reference in the letter.

Sherry

Hi Dee,

Thanks for responding. I will revise the letter and send it to you ASAP.

Hi Kevin- Please revise your letter to reflect current President Henry St.Germaine, Sr., Lac du Flambeau Band of Lake Superior Chippewa, P.O. Box 67, Lac du Flambeau, Wisconsin 54538

I am no longer the Vice-president since 2012 and I no go by my maiden name Dee Ann Allen (instead of Mayo).

We will confirm if the August 5, 2015 date will work with the Ojibwe Gas Station and the new Tribal Business Development Management Committee (who is involved since Feb 2015).

FYI- Shem from EPA Region V is also coordinating a site visit in LDF for the W/Stars open dump inventory that week as well- so his site visit times and dates will have to be considered.

For sure I will be able to participate as well as Kristen Hanson, Environmental Response Program from the Tribal Natural Resource Department, when the site visit is confirmed.

*Sherri was just up here yesterday and did not mention this? or is not aware that Dee Mayo and Dee Allen is the same person? Anyhow just keep me and Kristen posted on the updated letter, etc.

Thanks

Dee Ann Allen

Hi Dee,

I would like to conduct a UST inspection at the Lac Du Flambeau station on 8/5. Will anyone be available to accompany me that day? Thanks.
